THE WEATHER.

SIGNAL SERVICE BULLETIN.  
By Telegram to The Times.  
SAN FRANCISCO, Dec. 23.—Indications for  
24 hours, commencing at Dec. 21: California,  
fair weather, except rain from the Golden  
Gate northward along the coast.  
LOCAL BULLETIN.  
LOS ANGELES SIGNAL OFFICE, Dec. 23.—At  
4:07 a.m. today the thermometer registered 60;  
at 12:07 p.m., 60, and at 7:07 p.m., 53. Baromet-  
er for corresponding periods, 30.17, 30.15, 30.16.  
Maximum temperature, 64.0; minimum, 48.0.  
Weather at 7:07 p.m., clear.

THE OREGON RECORD has entered  
upon its second year with a robust and  
well-deserved boom and a new build-  
ing.

LORD RANDOLPH CHURCHILL appears to  
have left his seat in the British  
Cabinet only to sit down upon a journal-  
istic hornet's nest.

THE STAR says that Pasadena is grow-  
ing faster than any other city in the  
State, "not excepting Los Angeles."  
How we apples do swim.

MRS. ADAM, of Youngstown, Ohio, is  
suing for a divorce from her husband be-  
cause Adam voted the Democratic ticket.  
(Santa Cruz Sentinel.)  
Well, isn't it Adam good reason?

LITTLE by little, feeling our way  
along, and making available the raw  
materials in which the country abounds,  
will we become a manufacturing State?

TICKETS for the Bartlett inaugural  
ball are to be sold at \$10 apiece. The  
people who buy them will not be guilty  
of Republican simplicity; they will ex-  
hibit Democratic devotion.

THE origin of gift-making at Christ-  
mas time is hidden in mystery. No one  
seems to know precisely at what  
period of the world's history it began.  
It is a delightful custom, all the same.

FOREIGN FIELDS.

Politics Badly Demoralized  
in England,  
On Account of Lord Churchill's Sud-  
den Change of Base.

Gladstone's Return to Office Anti-  
cipated by the Liberals.

Many Nihilists Arrested in Russia—The  
Democracy of the Italian Government—Ri-  
gors of a Winter in Germany—  
Notes from Abroad.

By Telegram to The Times.  
LONDON, Dec. 23.—[By Cable.] Lord  
Salisbury had a long conference today with  
the Rt. Hon. W. H. Smith, Secretary of  
State for war, and Sir Frederick Ponsonby.  
The Prime Minister returned to Hatfield  
House this evening. The Queen summoned  
Lord Randolph Churchill and Lord George  
Hamilton, first Lord of the Admiralty, to  
Windsoor on Tuesday. Failing to reconcile  
Lord Randolph to the Cabinet's views, the  
Queen gave him time to consider the points  
at issue. Lord Salisbury was aware of  
Lord Randolph's decision yesterday morn-  
ing, and the matter was whispered  
at a ball given at Hatfield House  
last evening. Lord Randolph's premature  
divulgence of his decision to the Times is  
considered a breach of faith. Matthews,  
Home Secretary, is the only member of the  
Cabinet whose resignation is considered  
probable, but the Rt. Hon. C. T. Ritchie,  
President of the Local Government Board,  
and Mr. W. L. Jackson, Financial Secre-  
tary of the Treasury, who share Lord  
Randolph's views, may possibly retire.  
Lord Randolph, in an interview today, said  
that his health was better than it had been  
for months past. His decision to retire, he  
said, was the result of the deliberation  
and arose from no ill-temper or weariness  
of office.

WILL SUPPORT SALISBURY.  
LONDON, Dec. 23.—Lord Randolph  
Churchill authorizes the statement that he  
will continue to give a general support to  
the government, and on disputed questions  
he will hold his hand rather than  
oppose the government, avoiding every-  
thing that might tend to jeopardize the  
Unionist principles. It is reported that  
Lord Salisbury has renewed his offer of  
the Premiership to Lord Randolph, and  
proposing to take the foreign portfolio, and  
Lord Randolph has agreed to select  
a portion of the Cabinet.

CURIOUS DEMONSTRATION.  
The Carlton and other Conservative clubs  
are almost deserted tonight, owing to the  
holidays, but the few members remaining  
give unlimited expression to their fury  
against Churchill, regarding him as a  
traitor, who will be forever unworthy of  
the confidence. The Conservative As-  
sociation in London Randolph's constituency  
is arranging for the appointment of a com-  
mittee to call upon Lord Randolph and de-  
mand of him an explanation of his conduct.

THE LIBERAL MANOEUVRE.  
An informal meeting of Gladstonians was  
held at the National Liberal Club tonight.  
There was much rejoicing over the pros-  
pective break-up of the Conservative-Unionist  
coalition, and the hope was expressed that  
the gradual approach of a Churchill  
Chamberlain alliance with the Gladstonians  
will result, in the course of the coming  
session of Parliament, in the return of Glad-  
stone to office.

PAINELL INTERVIEWED.  
LONDON, Dec. 23.—A reporter called on  
Parnell at the Eastern Square Hotel this  
evening, and the heretofore quiet and un-  
assuming Parnell looked much more like a  
Chamberlain ally than a Gladstonian.  
He said that he was not a Chamberlain  
ally, but he was not a Gladstonian either.  
He said that he was not a Chamberlain  
ally, but he was not a Gladstonian either.  
He said that he was not a Chamberlain  
ally, but he was not a Gladstonian either.

pleable to England and Scotland, and we  
are prepared to apply it with the necessary  
change of details to Ireland. Are we to re-  
main disappointed fighting and in internecine  
strife for the benefit of our opponents,  
or are we to make this honest at-  
tempt? If we do not agree on every  
point, at least we can agree to  
hurry these important reforms on which  
there is no difference of opinion between us,  
and leave it to time and frank discussions  
of the subject to say whether, when we have  
accomplished these reforms, we may not go  
a step further in the direction of the views  
of these now unfortunately our opponents."

CHURCHILL'S SOLE REASON.  
The Standard announces that Lord Ran-  
dolph Churchill, in his letter of resignation  
to Lord Salisbury, gave as the sole reason  
for resigning his unwillingness to accept the  
naval and military estimates.  
SALISBURY WILL NOT RESIGN.  
LONDON, Dec. 23.—The Daily News says:  
"We understand that Lord Salisbury has  
asked Lord Hartington for assistance. The  
idea that he will resign is absurd. Lord  
Salisbury is not the sort  
of a man to admit publicly, that  
he has been defeated without Churchill.  
Churchill may now possibly join the Liber-  
als. Gladstone would without doubt ac-  
cept his friendship, as he has ever had a  
kindly feeling for Churchill, in spite of his  
monstrous language."

A NIHILIST PLOT.  
ST. PETERSBURG, Dec. 23.—The govern-  
ment has discovered the existence of an ex-  
tensive Nihilist organization, the members  
of which are principally workmen in large  
factories in this city, Moscow and Vladimir.  
Many members of the organization have  
been arrested.

THE POPE'S COMPLAINT.  
ROME, Dec. 23.—The Pope, receiving  
Christmas congratulations from the College  
of Cardinals, spoke at some length of the  
position of the church in Italy. He protested  
against the anti-clerical movement, which is  
being carried on in the country, and said  
that the Holy See was now despoiled of the  
last remnant of its patrimony. The only lib-  
erty left to him was that held by the Roman  
senators in the earliest ages. The Italian  
government, he declared, had assisted the  
latity in unduly interfering with the admin-  
istration of the church, and exposed reli-  
gious bodies and had tolerated an organized  
hostility against the Vatican. As the head  
of the church, he must continue to protest  
against the position in which he is placed.

GERMANY SNOW-BOUND.  
BERLIN, Dec. 23.—The showstern has  
ceased. The railway tracks at Dresden and  
Leipzig continue. Postal service by  
sleighs was started today between Chemnitz  
and Leipzig and other centers. A telegram  
from Chemnitz says that coal and provi-  
sions are very scarce there and that there is  
great want of cattle for slaughter.

A CHALLENGE.  
Shafer, the Billiardist, Finds a  
Solid Backer.  
ST. LOUIS, Dec. 23.—[By the Western  
Associated Press.] The Globe-Democrat  
tomorrow will publish a challenge from  
Richard Roche, of this city, offering to back  
Jacob Shafer against any man in the  
world at any game that is played on a  
billiard table. He then states specifically  
that he will back Shafer for not  
less than \$1000 against any man  
in the world at the 8-inch, 12-inch,  
14-inch ball-line game, champions' game,  
all-ball game, three-cushion game and cus-  
tom first or bank games. The last two games  
are to go as one match. The player ac-  
cepting one must also accept the other.  
The challenge also says: "In  
addition to the above game I will  
back Shafer against any player in  
America, bar Slosson, at 14-inch ball-line  
shooter to give his opponent a discount of  
33 1/3 per cent, for not less than \$1000.  
Shafer will play any of these games in  
any city in the country with one exception,  
New York. The games may also be played  
public or in private, the winner in all con-  
tests to take everything. As soon as any  
one of these challenges is accepted I will  
place a forfeit of \$1000 with the Globe-Dem-  
ocrat. Each game can be made for \$5000,  
\$10,000 or \$20,000, but for not less than \$1000."

ONLY ONE WITNESS.  
His Strange Story of the Death of  
Two Miners.  
SODA SPRINGS (Idaho), Dec. 23.—[By the  
Western Associated Press.] On Friday last  
the dead bodies of Charles E. Read, shot  
through the head, and Capt. John Winn,  
with the back of his head crushed by a  
blunt instrument, were found at their cabin  
near Caribou, 40 miles north of this place.  
The bodies were found in the following story:  
He was returning from a hunt, and  
stopped at the cabin. Read asked  
to examine his rifle, which was accidentally  
discharged in Read's hands, the ball passing  
through his head, causing instant death.  
This caused a quarrel between Winn and  
himself, so that he was forced to kill Winn  
in self-defense. Coroner Bassett and Sheriff  
Taylor left for the scene to hold an inquest  
and arrest Williams. Read is a brother-in-  
law of City Attorney White of Ogden.  
Winn is well-known. Both the deceased  
were highly respected and were engaged in  
mining.

Will Not Import Workmen.  
SAX FRANCISCO, Dec. 23.—Henry T.  
Scott, vice-president of the Union Iron  
Works, of this city, today denied the state-  
ment made at the Boiler Makers' Interna-  
tional Convention at Reading, Pa., yester-  
day, that the firm had taken steps to import  
labor from Europe to work on the cruiser  
whose construction was awarded to the firm  
by the government. He also added: "We  
have the men we want for the contract now  
at work in the yard, and San Francisco is  
full enough of skilled men to take all the  
work we can give them."

Thrown Out and Killed.  
MARTINSBURG, Dec. 23.—Last evening  
about 10 o'clock a fireman, J. M. Cope, of  
West Butte, Sutter county, was  
killed by the upsetting of a wagon in South  
Butte pass. She was returning home with  
her husband. The darkness was intense.  
The horses ran against a high bank, upset  
the wagon, threw all out and instantly  
killed her. She was 55 years old, and leaves  
several children.

Made an Assignment.  
MINNEAPOLIS, Dec. 23.—The Tracy Manu-  
facturing Company today assigned to Jabez  
B. Robinson. Liabilities, \$200,000; assets,  
\$150,000. The company has been in finan-  
cial difficulty for some time, and was un-  
able to reach satisfactory terms with its  
creditors. Two hundred men were thrown  
out of employment.

SPEEDILY SETTLED.

Brooklyn Carmen's Strike  
Suddenly Ended,  
But Not Without Trouble Between the  
Strikers and the Police.

Chicago Socialists Determined to Oust  
Powderly.

His Order Against Knights Aiding the Anarchists  
Causes Much Hostility—The Striking Brake-  
men on the Louisville and Nash-  
ville Still Holding Out.

By Telegram to The Times.  
NEW YORK, Dec. 23.—[By the Western  
Associated Press.] Many thousands of Brook-  
lynites who are accustomed to use the  
horses of the Brooklyn City Railway  
Company are compelled today to walk. The  
company control eleven lines of street-cars,  
all of which are tied up today. The men  
claim that the company has failed to carry  
out the agreement made with them  
last March, in regard to the hours  
of work. One of the causes of the  
trouble was the fact that the  
company would not recognize the Knights  
of Labor nor the Empire Protective Asso-  
ciation in its negotiations with its men.  
About 8 o'clock a dozen cars were started  
under protection of the police of East New  
York. One of the cars was attacked by five  
strikes and the police promptly arrested  
them and thus prevented further trouble.  
Brooklyn merchants say they will lose  
thousands of dollars by the strike, coming  
on as it does in holiday week.

STRIKES OVERPOWER THE POLICE.  
It was evident at about noon that there  
was likely to be serious trouble on the lines  
of the Brooklyn City Railway, and the po-  
lice were called upon to protect a car which  
the company desired to start from the depot  
at Greenwood, and Capt. Roe and several  
officers went to the scene, and, mounting  
the platform, the car was started. It got  
only one block on its journey when a mob  
took the horses from the car and ran the car  
back into the depot. The police were at-  
tempted to resist the men. A car at Hersey  
street and Tenth avenue was overturned,  
and the driver and conductor assaulted by a  
mob. The police attempted to interfere, but  
were overpowered and reserves were called  
upon to aid them. The car was hoisted from  
the track at Fulton and New York avenues,  
and the police were called upon here also.  
The driver and conductor, who were non-  
union men, were assaulted.

THE STRIKE SETTLED.  
NEW YORK, Dec. 23.—The strike of em-  
ployes of the Brooklyn city roads ended to-  
night. The company refuses to give any  
information as to the terms of settlement,  
but it is thought that it has acceded to the  
demands of the men.

POWDERLY.  
He Warns the Knights Against Giv-  
ing Aid to Anarchists.  
CHICAGO, Dec. 23.—Powderly's commu-  
nication regarding the attitude of the  
Knights of Labor toward the Anarchists is  
not yet made public. The document is not  
a general order, but is technically known  
as a "decision." It informs Assembly  
laws to interpret the constitution and  
how of the order. Powderly's decision  
is semi-officially stated to be twofold. It  
prohibits contributions in aid of the An-  
archists, or the extending to them of other  
aid. No assembly may, without violating  
the constitution, aid any political move-  
ment whatever, much less make of itself an  
active political machine.

POWDERLY ASSAILED.  
In the Carpenters' Assembly today resolu-  
tions were adopted, calling on all the dis-  
trict assemblies to demand an immediate  
causal session of the Knights' General  
Assembly. The purpose of the proposed  
special session is stated to be to afford an  
opportunity to prefer charges against Gen-  
eral Master Workman Powderly for over-  
stepping his authority. The Carpenters'  
Assembly contains a large number of active  
Socialists.

THE BIAKEMEN.  
Continuation of the Strike on the  
Louisville and Nashville.  
LOUISVILLE (Ky.), Dec. 23.—[By the  
Western Associated Press.] The strike of  
the freight brakemen on the Louisville and  
Nashville road is confined to the main  
stem between Louisville and Nashville and  
the north end of the Knoxville division.  
No freight was sent south from here  
today over the road, and none was  
received. Notices have been issued  
to shippers that until further notice  
no freight will be received for the South by  
the company here. All passenger trains  
are running without interruption. The  
management has announced that no strike  
not at work by 1 o'clock tomorrow will be  
taken into service again. General Manager  
Hartman states tonight that he hopes to  
resume traffic in a few days with men  
brought from other points.

California's Wine Product.

SAN FRANCISCO, Dec. 23.—The Merchant  
tomorrow will publish a statement showing  
the shipments of wine from California dur-  
ing 11 months of the present year to have  
been 5,022,474 gallons. This is the first  
time in the history of the State that the ex-  
ports have reached over 5,000,000 gallons  
in a single year.

Married a Los Angeles Man.  
WALLA WALLA, Dec. 23.—Mr. Noble  
Reynolds, a daughter of William Kimball,  
was married this evening to Leonard H.  
Garver, a civil engineer of Los Angeles.  
They started for San Francisco after the  
ceremony.

A Protracted Trial.  
SAN LUIS OBISPO, Dec. 23.—The Bidde-  
well case was today adjourned over to  
January 6th, when it is expected to occupy  
about four more days.

Adjoining the Nadeau Hotel.

Real Estate.

Speculators, Attention!

40-acre tracts, aggregating 222 acres, choice  
farming and fruit land, 12 miles from Los An-  
geles, in the San Fernando valley, on railroad,  
above Sepulveda station; good neighborhood,  
convenient to school and church; terms, 1/3  
cash, balance on time to suit.

Stock ranch, 300 acres; 2 streams with abun-  
dant water; some fine timber; part good  
farming and alfalfa land; 3/4 miles west of Los  
Angeles, on stage road to Ventura; price very  
low; terms, 1/3 cash, balance on time to suit.  
Lot southeast corner of OLIVE and SECOND STS.;  
good house of 12 rooms thereon.  
Two lots on Ninth st., west of Pearl, each 4  
by 150 feet to 20-foot alley.  
1 1/2 acres, elevated location, of easy access;  
water piped to the lot; near termination of the  
Temple street cable road; the proposed dump  
for the District Farm will run along the  
front line.  
Lots of 5, 10 or 16 acres in the "Link Tract";  
all level ground.  
Lots of 5, 10 or 20 acres in an addition to  
Boyle Heights.  
Speculators may ascertain that the prices  
quoted on the property above mentioned are  
comparatively very low.  
The terms of payment may be satisfactorily  
varied. Apply to H. MOSGROVE & CO.,  
21 S. Spring st.

## BUSINESS.

Dec. 28.—The Call's market for California dried oranges is very active and the demand. Raisins increased offerings, but not steady.

Findings of a very active market for this season. San Francisco: Oranges are beginning to come from the southern market has for some time been stocked with shipments and Mexican fruit. Figures, in fact, all heavy supply and dull.

At interior points is short and seaboard is heavy. The reason to force bulk. The fact that supplies are not in the hands of them at pretty fair out without loss, except current rates, is another reason for the generally recent quotations. The in a day or two have been going, but the market is affected by the foreign strongest on medium

## TO WINEMAKERS.

## A Call by L. J. Rose for a Meeting

Mr. Charles A. Wetmore wishes me to call a meeting of all the grape growers and winemakers for next Tuesday, at 2 o'clock, at the Board of Trade rooms, Los Angeles. He will come by train that day, en route for Washington for the purpose of procuring legislation in the revenue measures, which are so important to every grape grower, winemaker, distiller and to the State at large. He wishes to consult with our people, to submit his plans and give a general résumé of what has been done and what is desired to be accomplished. To pass the free-trade bill for wine and grape brandy, which has a most important bearing, especially on the interest of the Southern counties; also the bill known as the Spurious Wine Bill, the Bonding Bill, and other matters of much importance to the viticultural interest of the State.

I will say that I deem this work to be done by Mr. Wetmore of the greatest importance, more important than all other work that has ever been done in the whole history of viticulture here. In fact, it is the life and death struggle of wine interest of this State, and not one person engaged in its pursuit can afford to shirk his active, participating help. I speak from selfishness, for, I may claim to be a winemaker no longer, but I think I understand the whole question and its importance to every citizen of California, for if the grape industry is made profitable, we will have a universal prosperity which will never be attained in any other way. I call on you, therefore, to give this matter your serious consideration, and all of you come and show your presence and earnestness in this subject. It lies with you, and I hope you will never rest until the objects proposed are accomplished.

L. J. Rose.

## Base-ball.

An interesting series of base-ball games is booked for the holiday season, between the Los Angeles Club and the California, of San Francisco. Games will be played this afternoon and tomorrow afternoon; also on Saturday and Sunday, January 1st and 2d, at the base-ball grounds, corner of Sixth and Flower streets, at 1:30 sharp. The California battery will be Ed J. Conley, the lightning pitcher of the Providence Grays, and Mike de Panger, catcher; and the home team will have Walbridge and Moore. The full teams are given below:

CALIFORNIA.	LOS ANGELES.
Conley.....	Walbridge
Tom McCall.....	Tom McCall
James Buford.....	George
Harry O'Day.....	Turner
James Smith.....	Raymond
Ed Reeder.....	Ed Reeder
John Murdock.....	Goldstein
Ed Shady.....	Dancomb

## Killed by the Cars.

Coroner Will Lindsey was summoned to Compton last night to hold an inquest on the body of Cornelius McLean's two-year-old son. The little one, in playing around the railroad track in the afternoon, sat down at the end of one of the ties, not noticing that a train was approaching. The engine struck the unfortunate child and killed it.

## PERSONAL NEWS.

Justice C. S. Sussey, of Long Beach, was in the city yesterday. He is a native of South Sea, Assessor of Tulare county, is the guest of his cousin, F. X. Palmer. Circuit Judge Lorenzo Sawyer, of San Francisco, arrives in this city today on a short visit.

Mrs. Josephine Wakelee, of Long Beach, came up yesterday to do some Christmas shopping.

Mayor E. F. Spencer celebrated his birthday yesterday. He is 53, and growing younger every year.

Willie B. Gard, son of the Sheriff, returned yesterday from college in Santa Clara, to pass the holidays at home.

Wm. Van Dyke, the newly-appointed Clerk of the District Court of Southern California, arrived from the north yesterday.

Petitioner Fred C. Smith and wife have just captured a very sly milk-thief. The thief is a male, and is now about twenty-four hours old.

Frank McCoy is back from a trip to San Diego. He says it is so dry that they have to turn the wells inside out, and bring 'em to get any dampness out.

## COAST ITEMS.

The Democrat Publishing Company has filed articles of incorporation at Portland, Or., with \$20,000 capital. A daily paper will be published.

It is reported in Carson, Nev., that during the Legislature, San Francisco parties, whose names were not learned, are going to open a faro bank at that place with \$50,000 in the drawer. They are going to have a regular doorknocker, and any one wanting to get in will have to purchase \$20 worth of checks before entering, and if he does not see fit to play, on coming out he returns the checks and gets back his money.

Judge McFarland, of Sacramento, has signed a decision in the case of A. J. Nila and J. K. Watson, San Francisco parties, who have purchased the plaintiffs some years ago each on the 1000 worth of stock (\$7500 from the plaintiffs) and the grand bank country are important factors in this coming from the East.

D. GILBERT DEXTER, Manager.

C. S. GILBERT, Assistant Manager.

Office, 115 W. First st., opp. Nadeau House, Los Angeles, Cal.

## A Marine Buster.

The sea-serpent of 1886 seems to be a more hardy animal than his predecessors, and at times rolls on he grows more and more extraordinary. At his most recent appearance, which was to the frightened passengers of the Atlantic steamer "Thetys" the other day, he was "about 70 feet long and stood 10 feet out of water."

## A Very Sweet Morsel.

The influence which Judge Field possesses with the Administration and exercises in the successful recommendation of such men as Judge Ross and J. Marion Brooks to fill important offices must be a sweet morsel for rumination by that branch of the Democracy which called him everything that wasn't actionable so shortly ago.

## A New Cook for the White House.

President Cleveland has secured a new cook for the White House. He is a Frenchman and a graduate of the College Culinaire de Delmonico, and is called "great" on Mugwump critics and Pan (Electric) cakes.

## Three Railroads.

Three railroads are talked of for this valley, to be built during the winter. Three parallel roads are enough for any section. If we can not get railroad accommodations with that many lines running through our valley, it will surely be our own fault.

## A Big B for Boodle.

"Shall I capitalize 'Boodle'?" asked the compositor. "Certainly," said the editor, "for where capital is not, boodle can never be."

## You Struck It Exactly.

The average journeyman printer is, after all, the noblest man of them all.

## BRIEFS.

Now hang your stockings. Remember the orphans and the poor, tomorrow.

Edwin Ward has invested \$14,000 more in Long Beach land.

The Orizaba sails north tomorrow and the Eureka on Sunday.

The amount of buildings going on in the city is simply marvelous.

A Pasadena lady of modest anonymity sent in \$5 yesterday for the Orphans' Home Christmas.

Albert Pratter was taken in by the police yesterday for throwing waste paper on North Spring street.

E. E. Farnes, who for a long time has officiated as clerk in the St. Charles Hotel, has left that establishment.

Marriage licenses were issued yesterday to W. J. Howard and F. P. Howard, and G. B. Key and M. F. Wright.

The case of Pico vs. Cohn was being argued yesterday before Judge Cheney. Arguments will be resumed today.

A question that agitates the juvenile mind is: How can Santa Claus come into Los Angeles with his sleigh and reindeer?

Burch & Bosh sell their Carter Grove tract at auction at 1 p.m. today. It is one of the prettiest locations in West Los Angeles.

Filed in the Recorder's office yesterday: 76 deeds, 17 mortgages, 25 satisfactions, three marriage licenses and 18 miscellaneous papers.

The auction sale of Russell, Cox & Brandt's Malabar tract, South Pasadena, was a success. One hundred and eight lots were sold at fair prices.

Ceo. T. Hanley and wife were bereaved night before last. Their youngest child, a very pretty babe, died very suddenly of pneumonia.

Mrs. Loretta was arrested yesterday for failing to remove a dead horse from her premises on Brooklyn Heights. She deposited \$10.

Thirty Pullmans, loaded with the regular Atchison, Topeka and Santa Fe semi-monthly excursion, will leave Kansas City on the 30th, bound for Los Angeles.

As tomorrow is a legal holiday, the office of the County Superintendent of Schools will be open until 2 p.m. today and until the same hour on Monday.

Easterners say Los Angeles is a place where:

"Every prospect pleases,  
And streets alone are viable."

The altitudinous track of the Main-street and Agricultural Park line is being lowered to paying grade in front of the Temple block. The two-horse street-car track still remains on high.

It is said that E. J. Baldwin intends to tear down the present buildings on his Spring-street property (from the Jones block to the Dunsmuir block) and erect on the site a \$100,000 four-story arcade of Moorish design, running back to New High street.

Mayor Spence has signed the ordinance granting a franchise for the New High and Los Angeles Railroad for depot, yards and levees.

M. Teed having been elected to Council, the Fine-Kill Club declared its president vacant, and proceeded to elect a new one. Rudolph Miller, having nominated himself, seconded the nomination and cast the ballot of the club, was elected president.

William Abbott forfeited his bail and failed to appear in Justice Austin's court to answer a charge of opium-smoking. He was rearrested for contempt of court, and gave fresh bail to the amount of \$50. John T. Sawcsey was also rearrested for the same offense, and put up \$30.

He Was, Eh?  
(Oceanic Star.)

Judge Reece was called upon a few days ago for a warrant to arrest a festive Los Angeles drummer for kidnapping.

## CATARRH.

THE TERM CATARRH IS APPLIED to all similar disorders of the nose and adjacent parts, which prevail to an alarming extent and is productive of very serious consequences.

The most prominent and characteristic feature is a morbid discharge from the nasal cavity, varying in its nature at different times.

In some there is an almost constant flow of clear, acid fluid, but often an offensive, purulent or mucous-purulent, greenish-yellow matter is secreted, which accumulates in the nostrils or drops into the throat, necessitating its frequent removal by blowing the nose or expectoration, and often by both processes.

Sometimes patients feel as though their whole head was in a state of rotteness, so great is the amount of matter discharged, and so fetid is its odor. The patient is greatly annoyed by the constant dripping into the throat of the morbid matter from the head, and as a recurrent position naturally favors the flow downward, his rest is frequently disturbed by this cause. Many sufferers are obliged to lie with the head very much elevated in order to sleep with some degree of comfort.

In others a tough, viscid and offensive phlegm collects behind and above the soft palate, in the passage between the throat and head, adhering to the parts with glistening tenacity. Its lodgment embarrasses respiration and creates a sensation of irritation and uneasiness in the throat, which gives rise to a constant and almost irresistible desire to relieve the discomfort by drawing the mucus into the throat, so as to eject it by the mouth.

This practice, popularly known as "hawking," is a characteristic of catarrh, and proves as embarrassing to the one affected as it is disagreeable to those around him.

Again, the offensive matter hardens and deposits itself on the membrane in the shape of dry, hard concretions, which, when removed by way of the nostrils or throat in lumps or fragments of a deep green tint. In some cases these concretions accumulate to such an extent as to form a regular plug in the nose, which obstructs breathing and produces a disagreeable odor. So firmly do these concretions adhere to the point of attachment that their removal usually requires the use of great force; not unfrequently they have to be torn from the membrane. Occasionally a solid cast of notable size is expelled, or what there are generally traces of blood, but in these cases the disease is not so severe as in the case of a regular plug in the nose.

These concretions, in time, may destroy the bony structure of the nose and produce a subsequent deformity, known as "hooking," a characteristic of catarrh, and proves as embarrassing to the one affected as it is disagreeable to those around him.

So firmly do these concretions adhere to the point of attachment that their removal usually requires the use of great force; not unfrequently they have to be torn from the membrane. Occasionally a solid cast of notable size is expelled, or what there are generally traces of blood, but in these cases the disease is not so severe as in the case of a regular plug in the nose.

These concretions, in time, may destroy the bony structure of the nose and produce a subsequent deformity, known as "hooking," a characteristic of catarrh, and proves as embarrassing to the one affected as it is disagreeable to those around him.
